

Characteristic Curves

THI 2-0511M

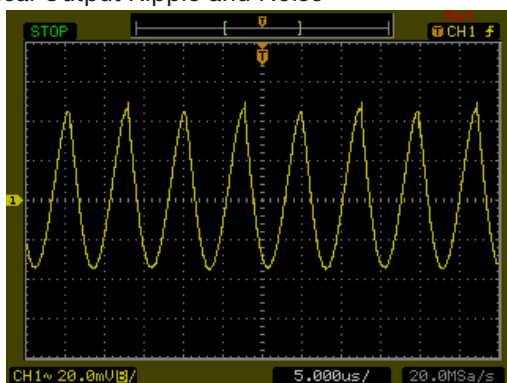

Efficiency versus Output Load

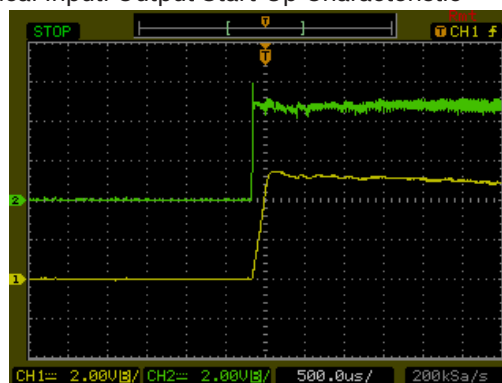

Efficiency versus Input Voltage

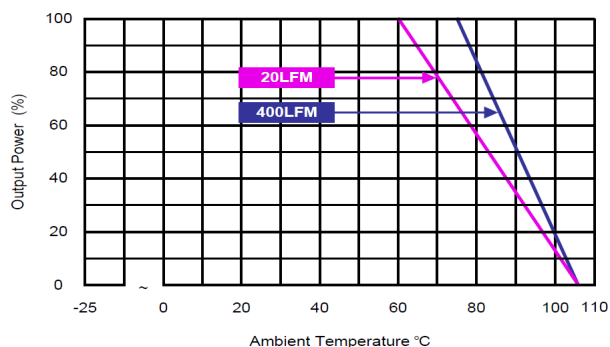

Typical Output Ripple and Noise

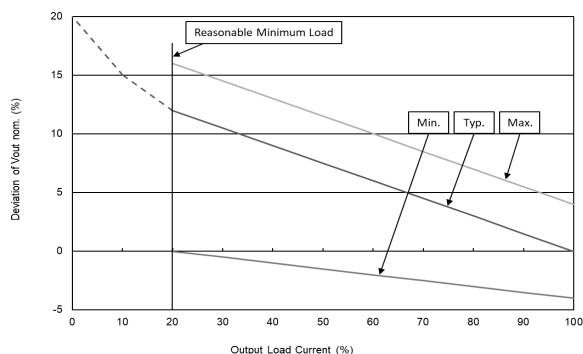

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

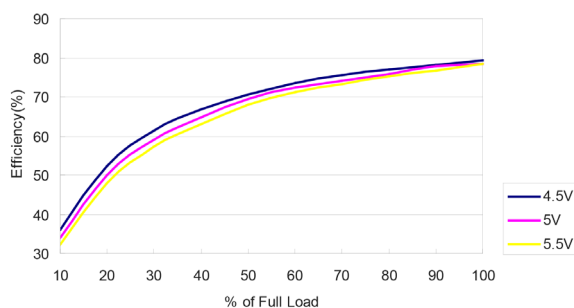

Load Variation versus Output Voltage

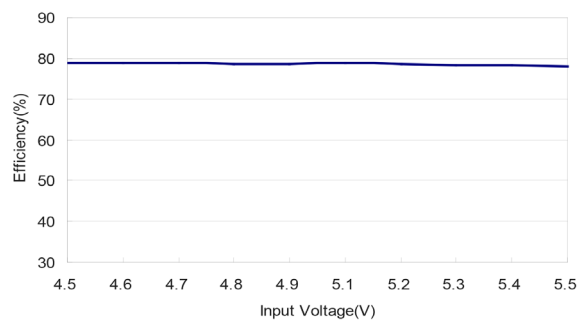

THI 2-0512M

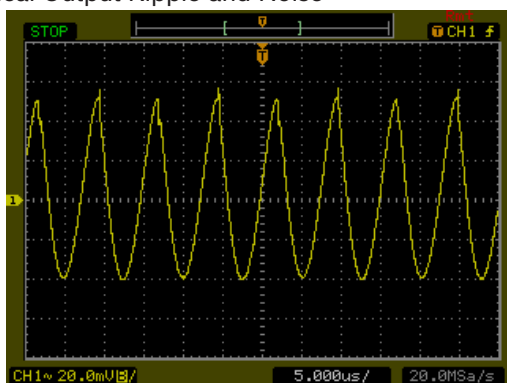

Efficiency versus Output Load

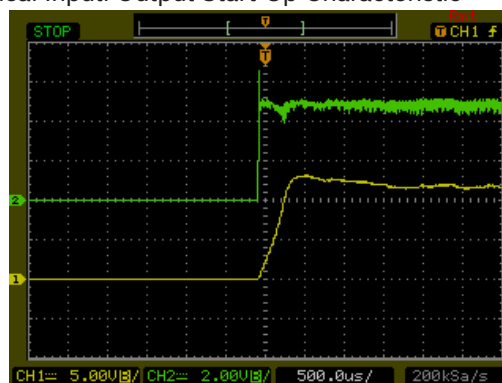

Efficiency versus Input Voltage

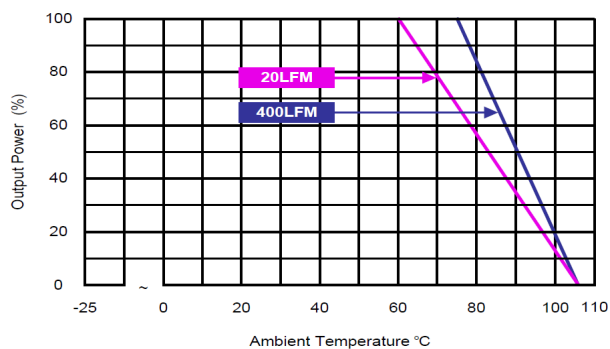

Typical Output Ripple and Noise

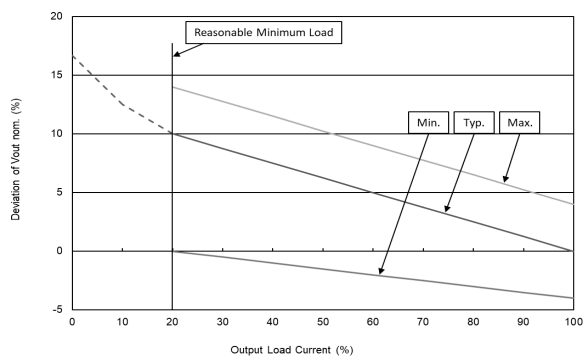

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

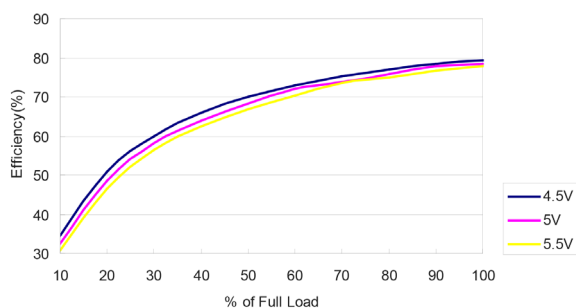

Load Variation versus Output Voltage

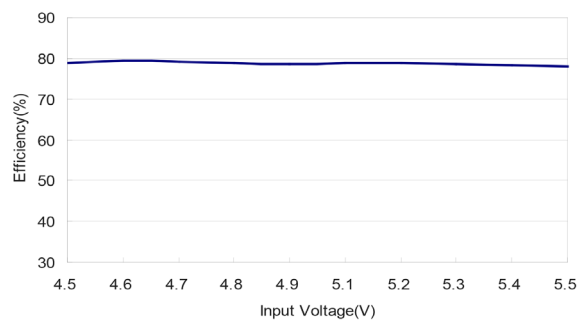

THI 2-0513M

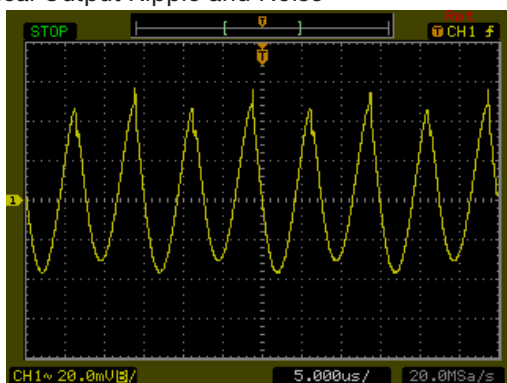

Efficiency versus Output Load

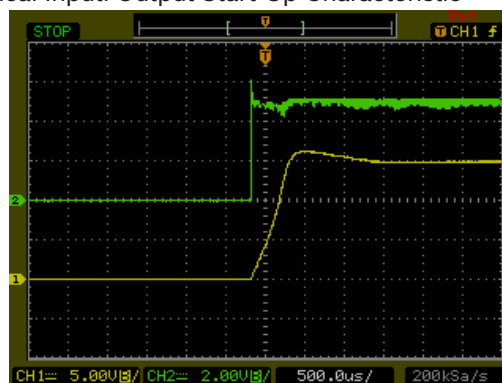

Efficiency versus Input Voltage

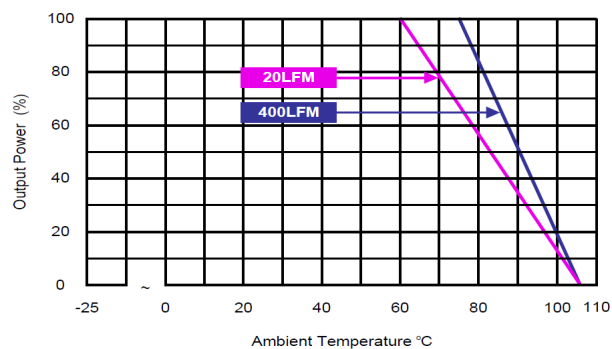

Typical Output Ripple and Noise

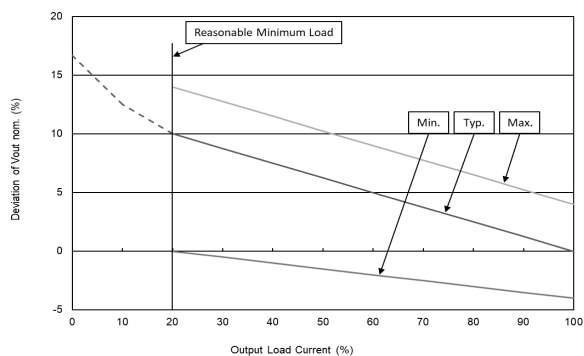

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

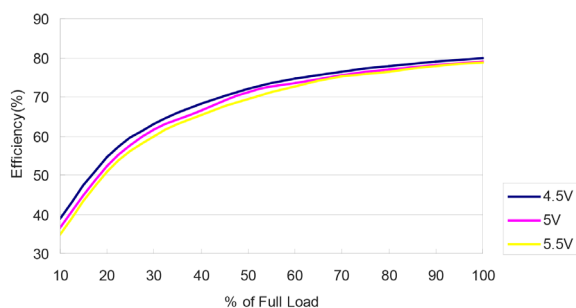

Load Variation versus Output Voltage

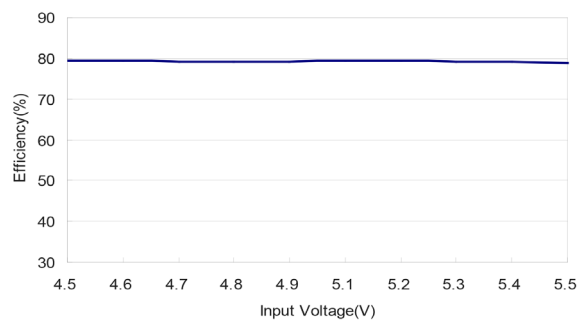

THI 2-0522M

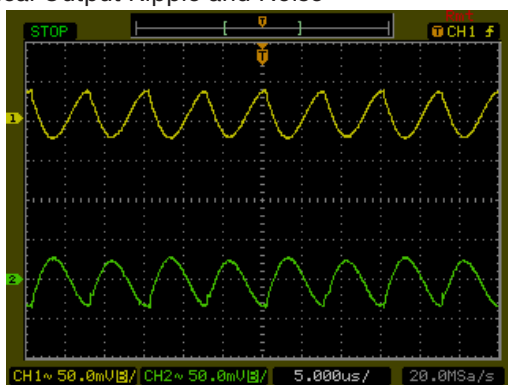

Efficiency versus Output Load

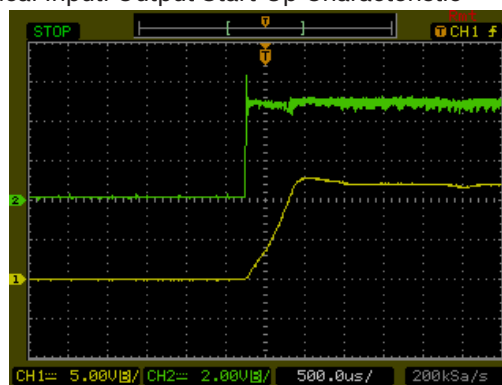

Efficiency versus Input Voltage

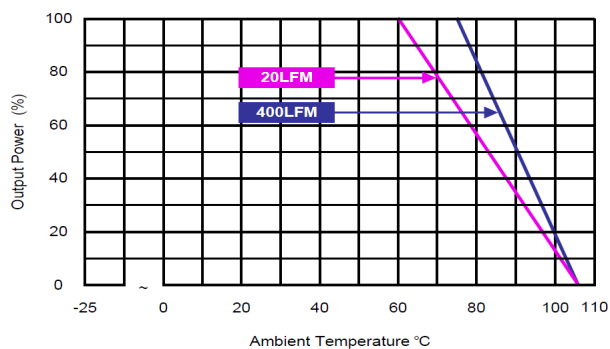

Typical Output Ripple and Noise

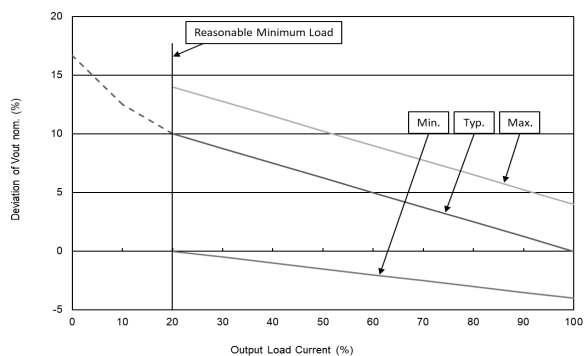

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

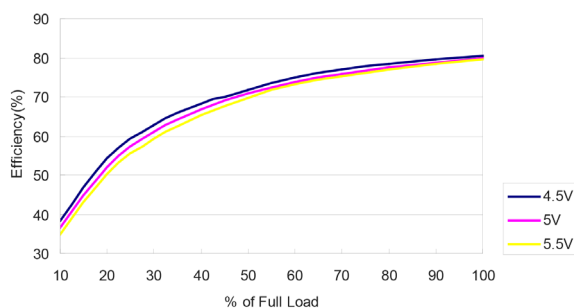

Load Variation versus Output Voltage

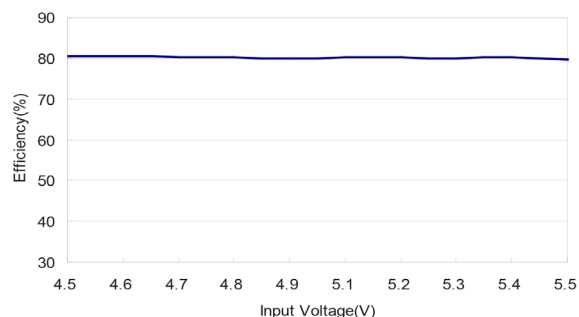

THI 2-0523M

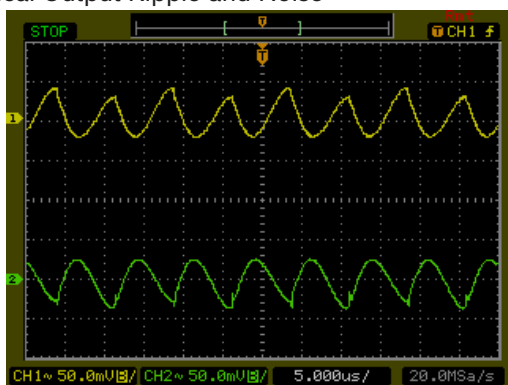

Efficiency versus Output Load

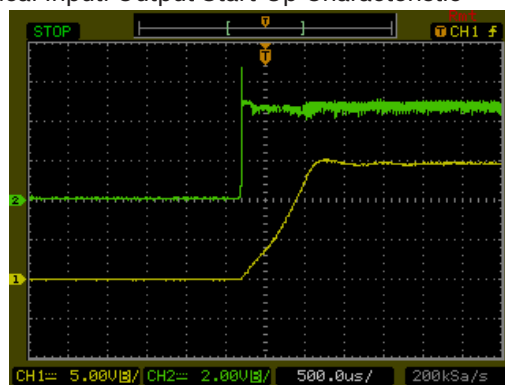

Efficiency versus Input Voltage

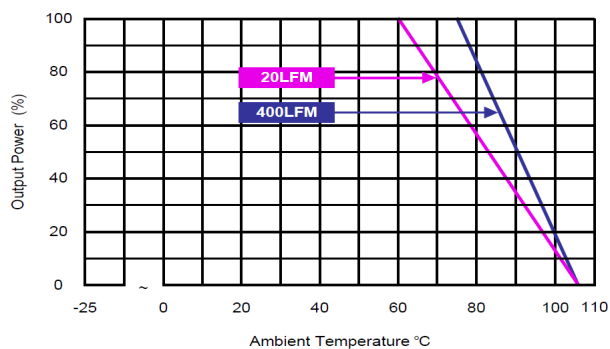

Typical Output Ripple and Noise

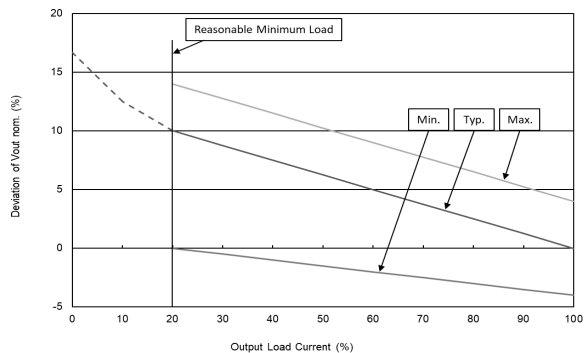

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

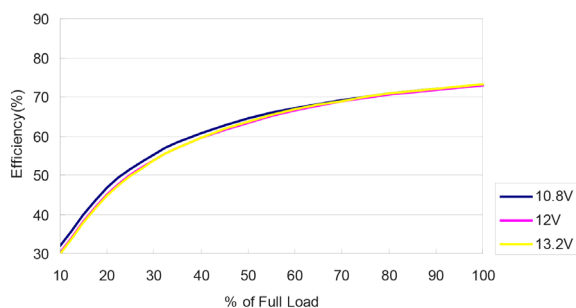

Load Variation versus Output Voltage

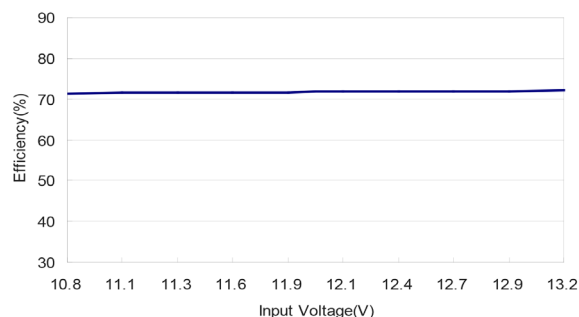

THI 2-1211M

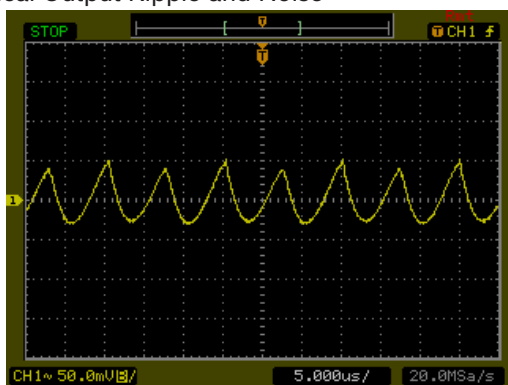

Efficiency versus Output Load

Efficiency versus Input Voltage

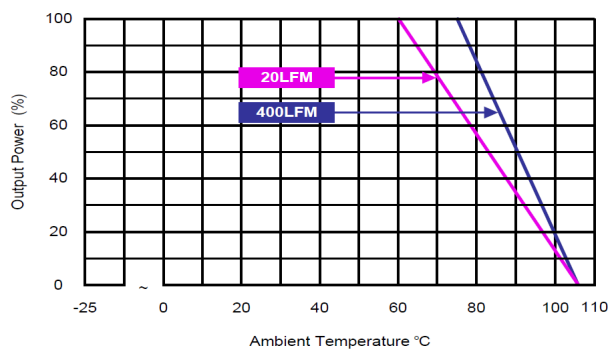

Typical Output Ripple and Noise

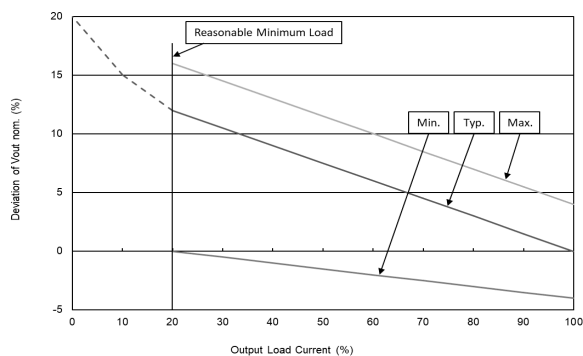

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

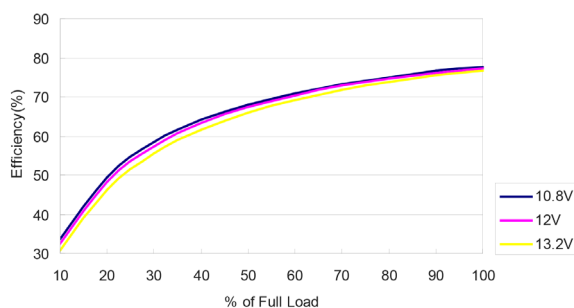

Load Variation versus Output Voltage

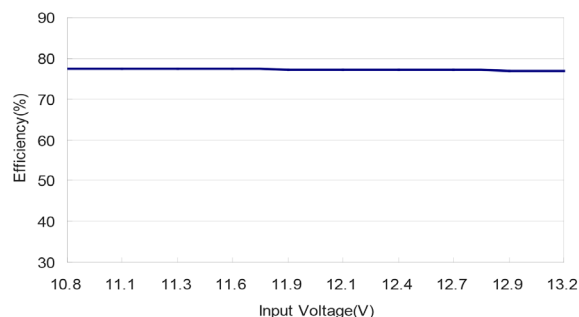

THI 2-1212M

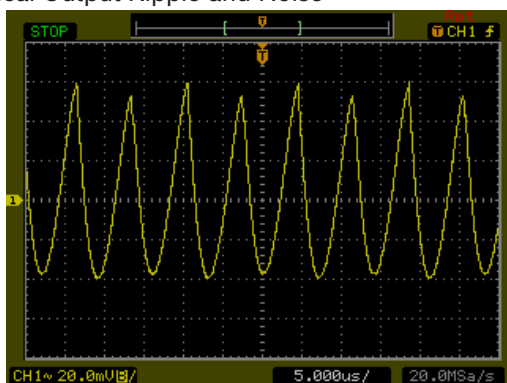

Efficiency versus Output Load

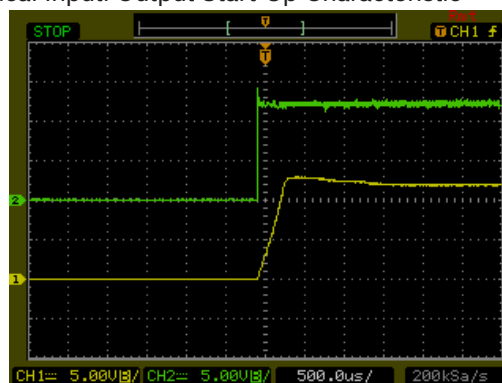

Efficiency versus Input Voltage

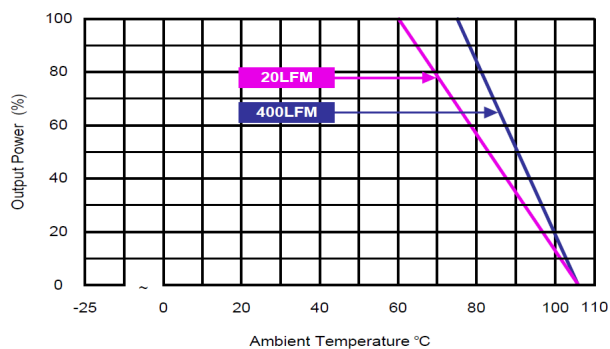

Typical Output Ripple and Noise

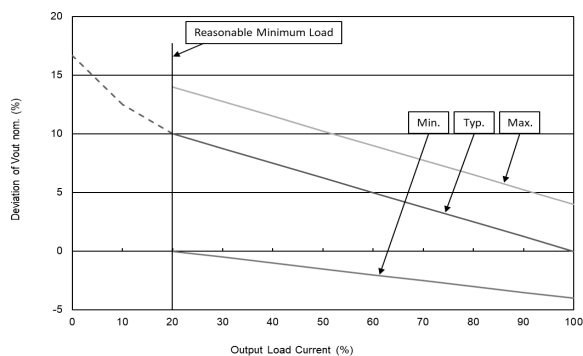

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

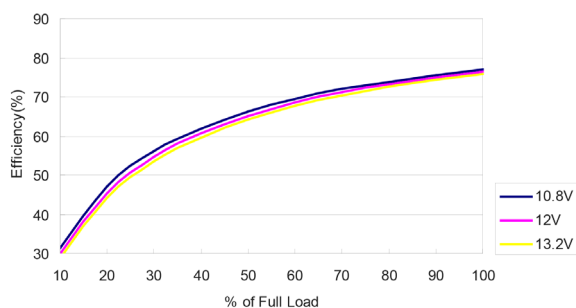

Load Variation versus Output Voltage

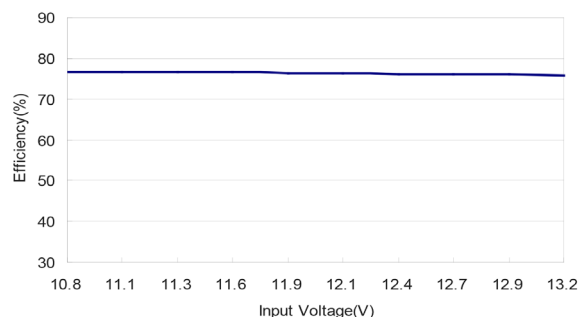

THI 2-1213M

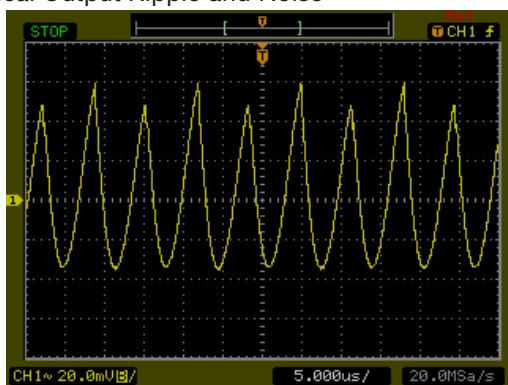

Efficiency versus Output Load

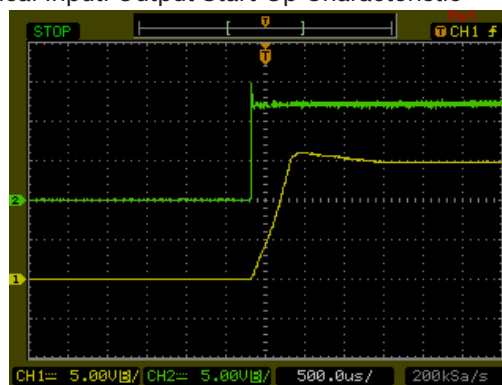

Efficiency versus Input Voltage

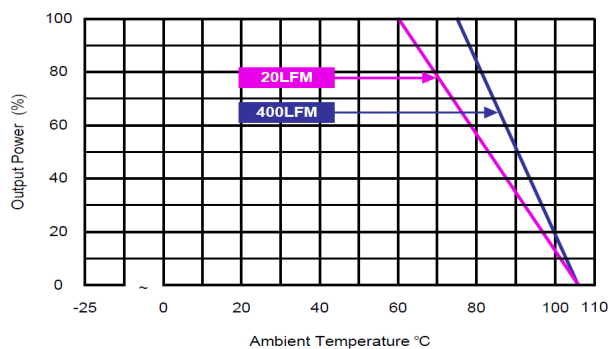

Typical Output Ripple and Noise

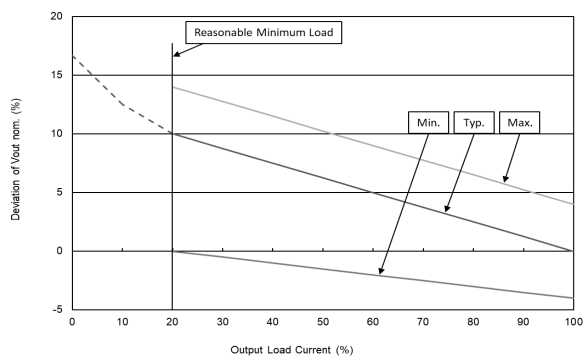

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

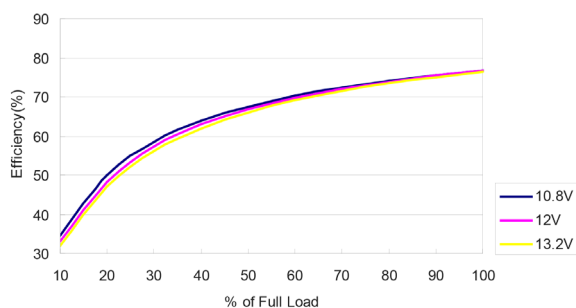

Load Variation versus Output Voltage

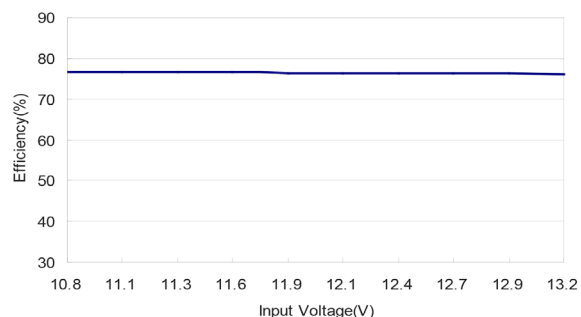

THI 2-1222M

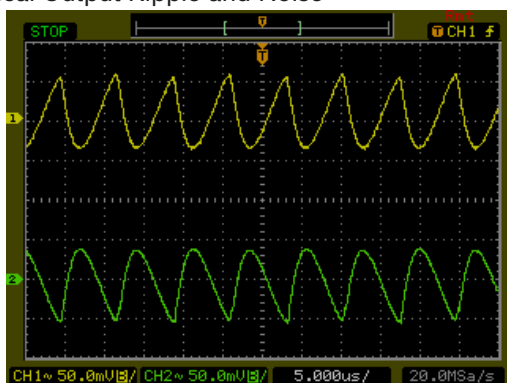

Efficiency versus Output Load

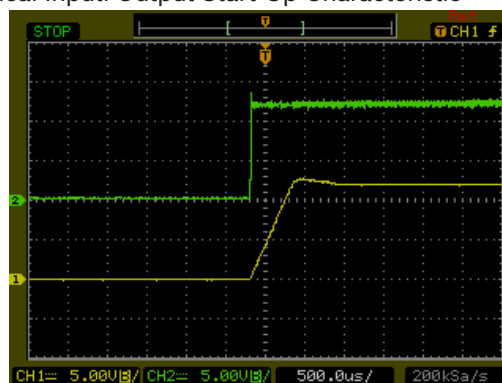

Efficiency versus Input Voltage

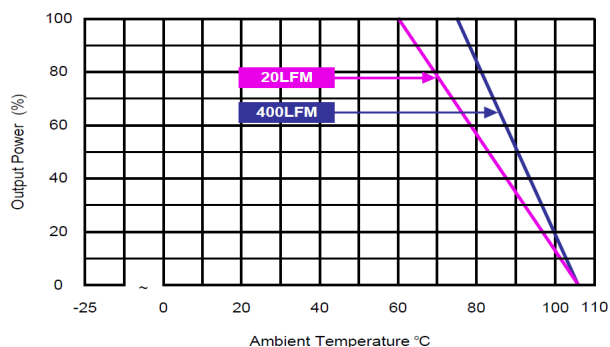

Typical Output Ripple and Noise

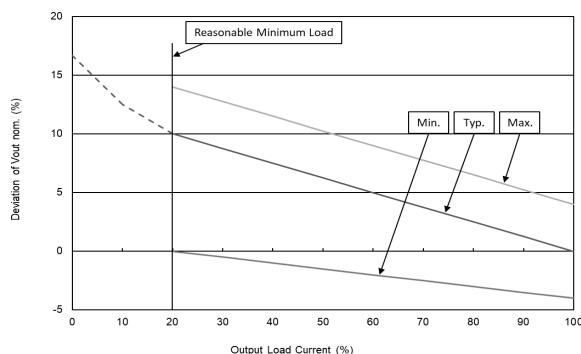

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

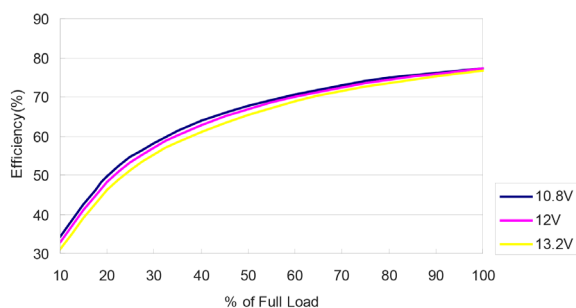

Load Variation versus Output Voltage

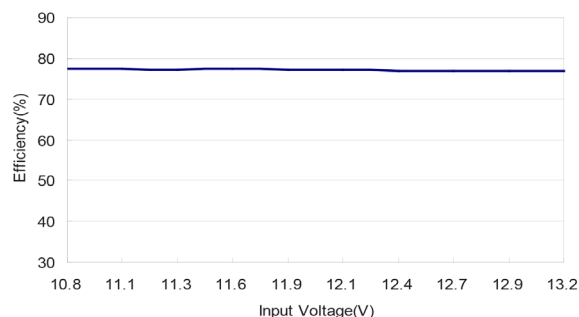

THI 2-1223M

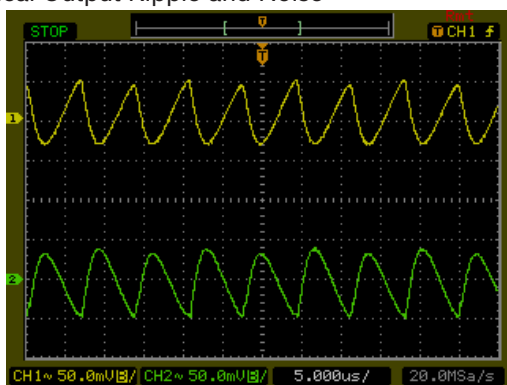

Efficiency versus Output Load

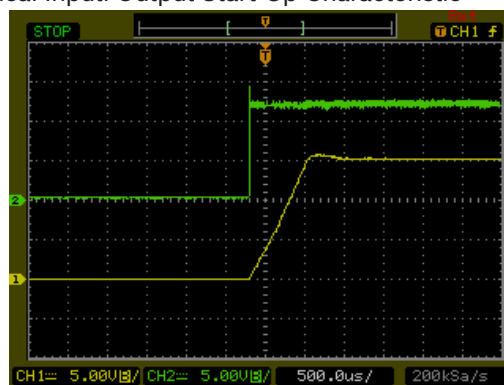

Efficiency versus Input Voltage

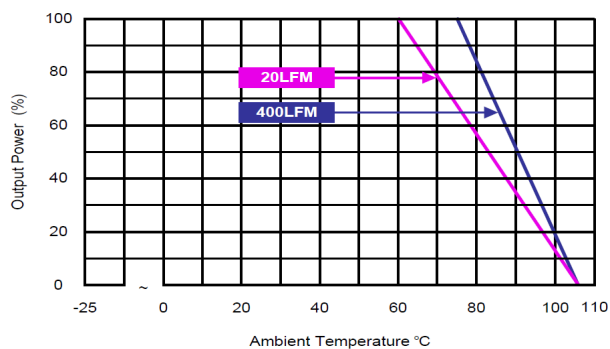

Typical Output Ripple and Noise

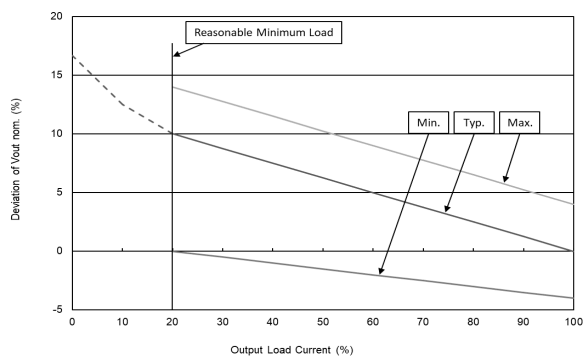

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

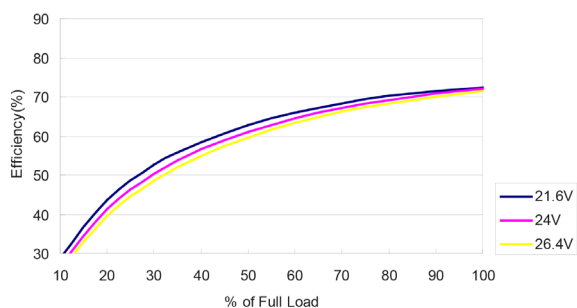

Load Variation versus Output Voltage

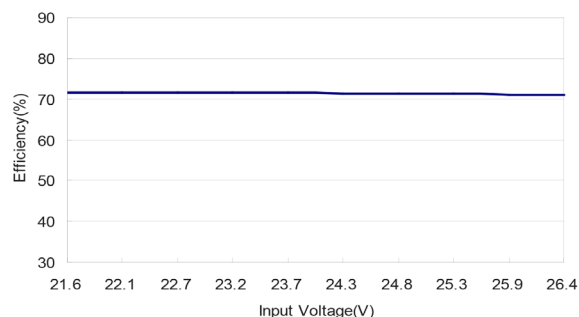

THI 2-2411M

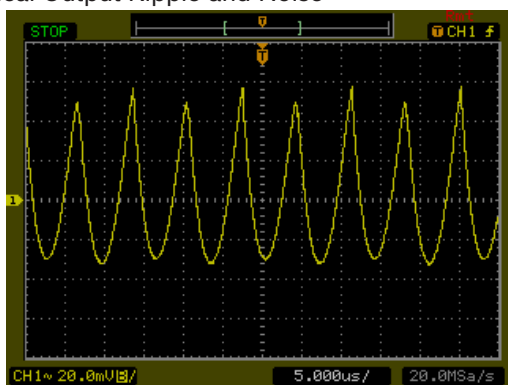

Efficiency versus Output Load

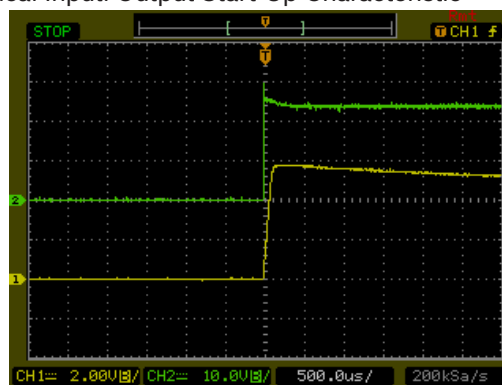

Efficiency versus Input Voltage

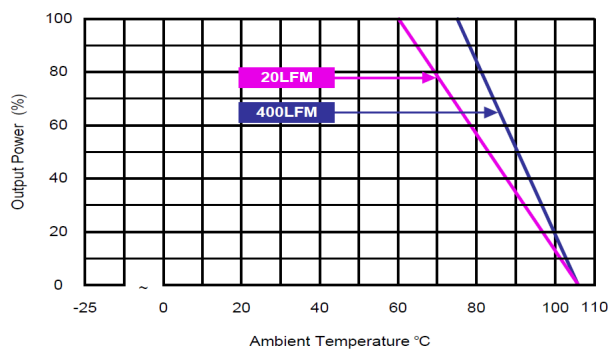

Typical Output Ripple and Noise

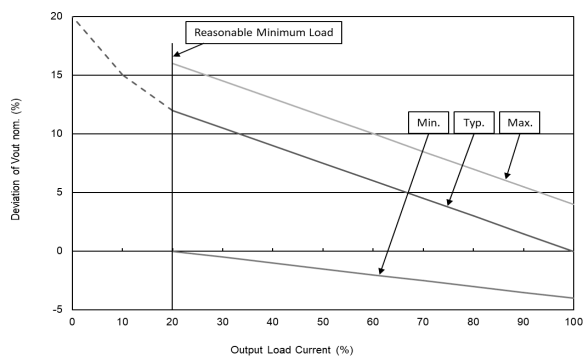

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

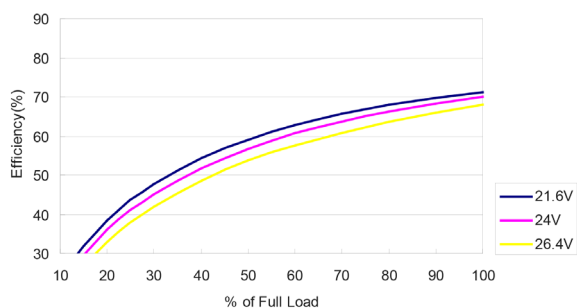

Load Variation versus Output Voltage

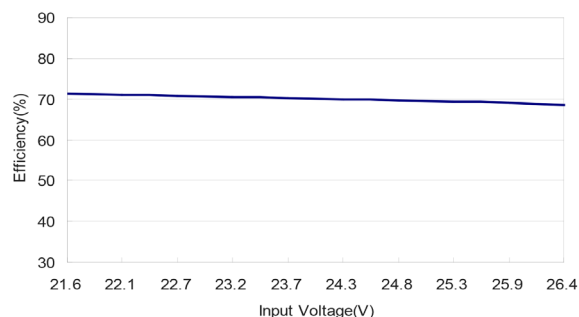

THI 2-2412M

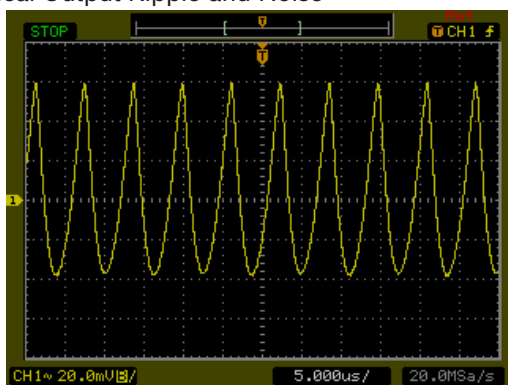

Efficiency versus Output Load

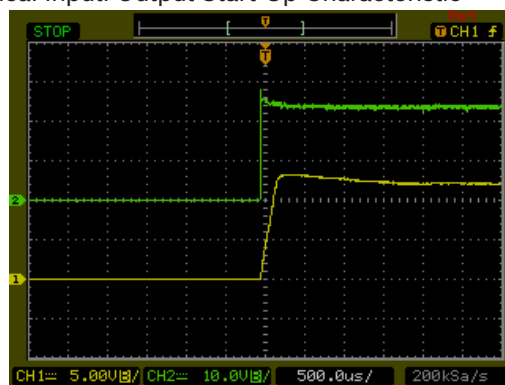

Efficiency versus Input Voltage

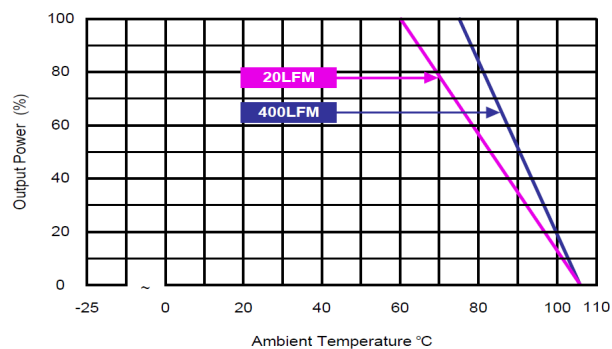

Typical Output Ripple and Noise

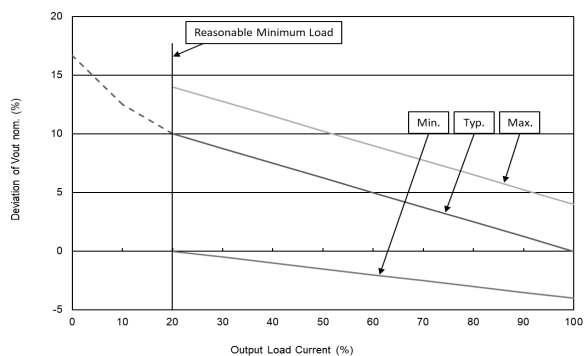

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

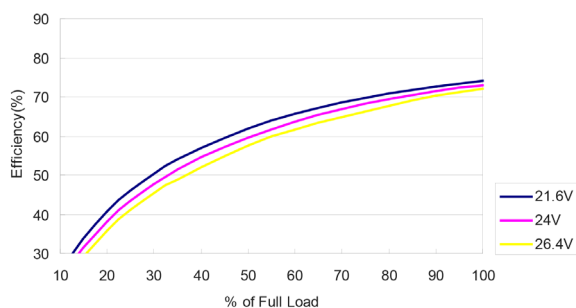

Load Variation versus Output Voltage

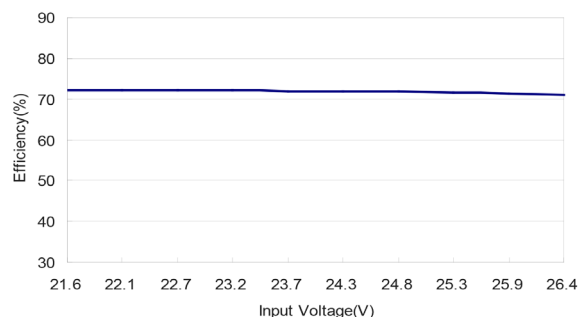

THI 2-2413M

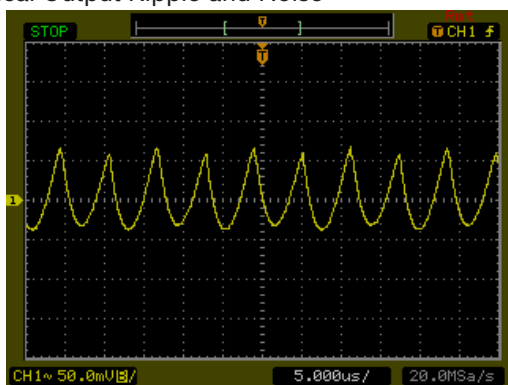

Efficiency versus Output Load

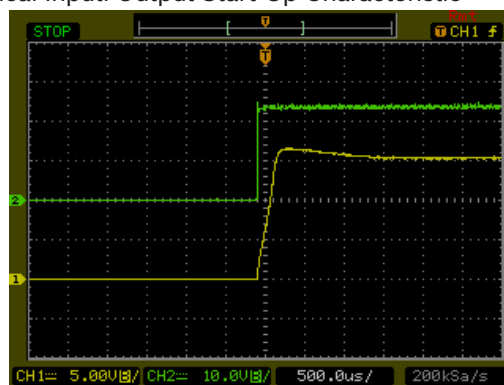

Efficiency versus Input Voltage

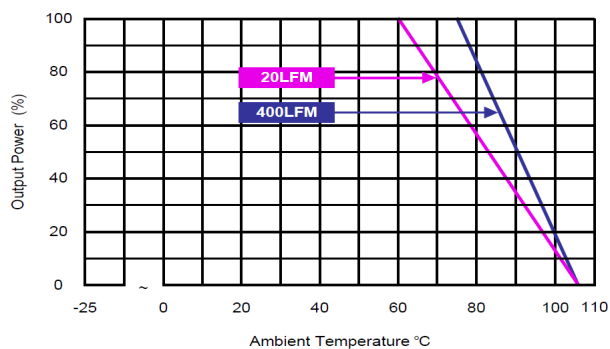

Typical Output Ripple and Noise

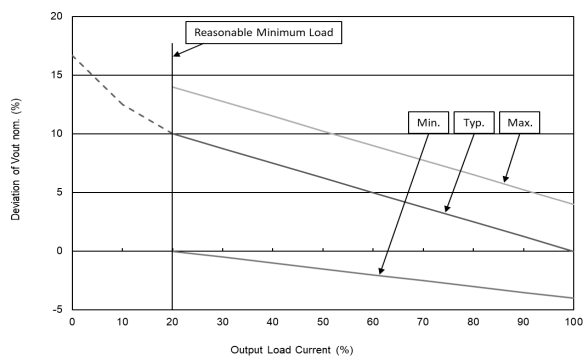

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

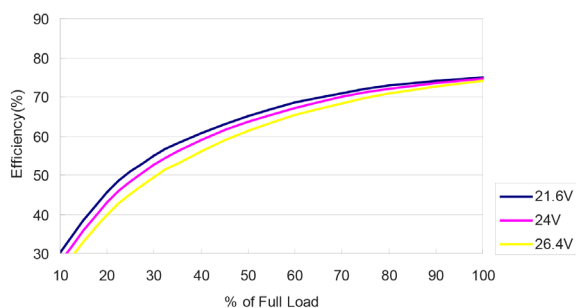

Load Variation versus Output Voltage

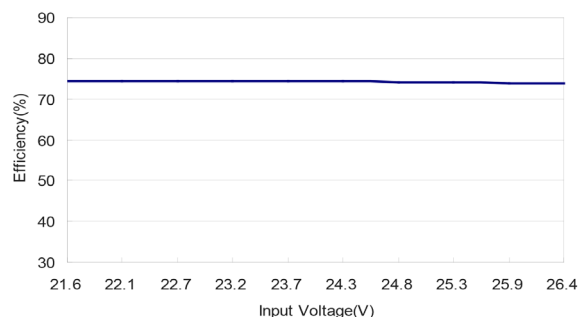

THI 2-2422M

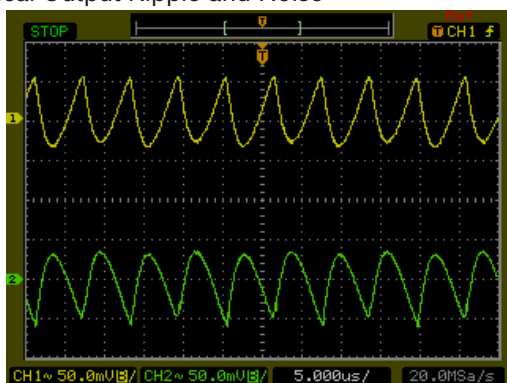

Efficiency versus Output Load

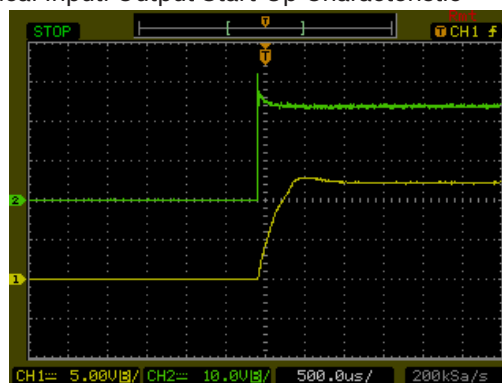

Efficiency versus Input Voltage

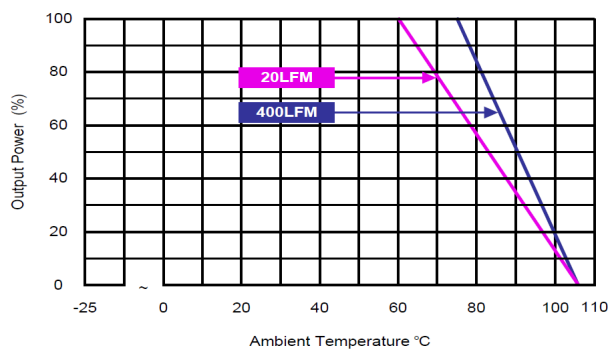

Typical Output Ripple and Noise

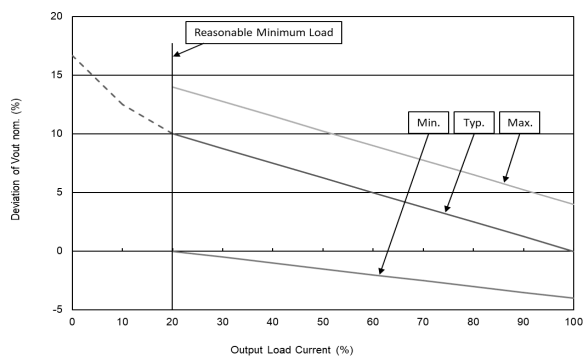

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

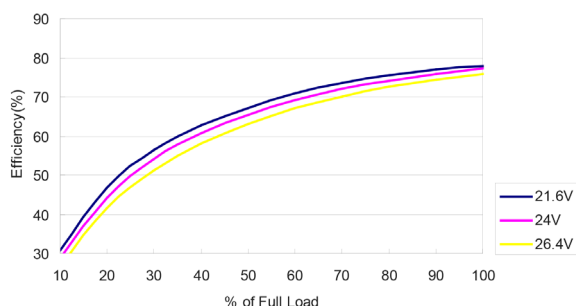

Load Variation versus Output Voltage

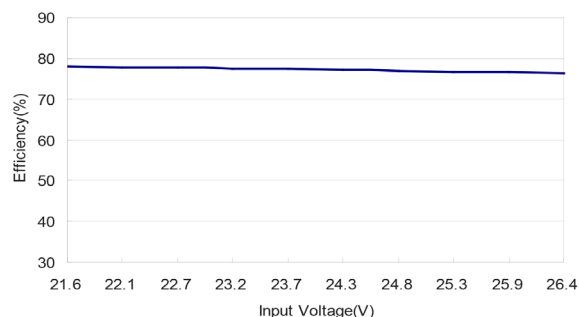

THI 2-2423M

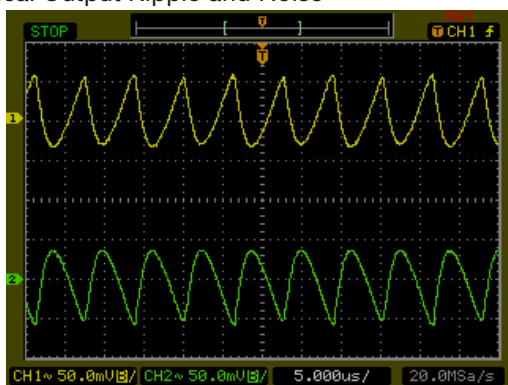

Efficiency versus Output Load

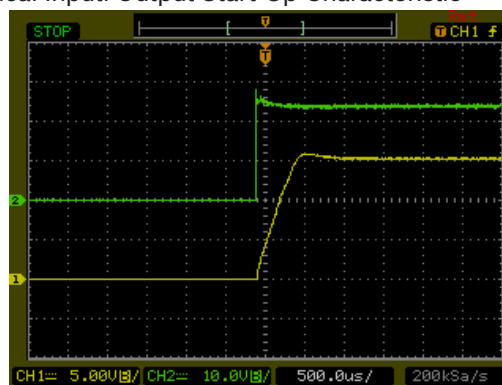

Efficiency versus Input Voltage

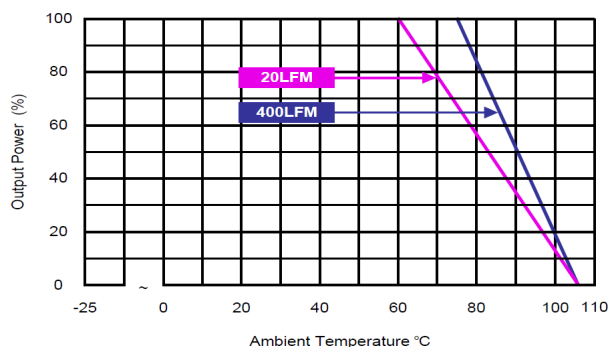

Typical Output Ripple and Noise

Typical Input/Output Start-Up Characteristic

Derating Output Load versus Ambient Temperature

Load Variation versus Output Voltage
