DC/DC Converter

TEL 15WIN-HS Series, 15 Watt

- Ultra compact 15 Watt converter in DIP-16 metal casing
- Special heatsink-case design for maximized temperature capabilities
- Operating temperature range -40°C to +70°C without derating
- Wide 4:1 input voltage ranges: 9-36, 18-75 VDC
- High efficiency (up to 87%) for low thermal loss
- 6-side shielded metal case with insulated baseplate
- Built-In EN 55032 class A filter (conducted)
- Protection against short circuit
- 3-year product warranty

The TEL 15WIN-HS is a series of isolated 15 Watt converters which come in an ultra compact DIP-16 metal package with a special heatsink-case design for extended temperature capabilities. The design purpose of this series was to maximize temperature capabilities within the standard DIP-16 footprint. The TEL 15WIN-HS offers a wide 4:1 input voltage range and features a high efficiency of up to 87% which together with the integrated heatsink casing enables an operation temperature of up to +70°C at full load and up to 85°C with 50% load. The converters also have an internal input filter to comply with conducted emission standard EN 55032 class A. It’s an economical solution for space critical and cost sensitive applications in instrumentation, IT and industrial electronics where operating temperature range is critical factor.

Note: 48 Vin models: If the input will be switched electromechanically, use an external 27 μF / 200 V / KXY capacitor to reduce voltage transient.
### Input Specifications

| Input Current      | - At no load          | 24 Vin models: 10 mA typ. |
|                   | 48 Vin models: 7 mA typ. |
|                   | - At full load        | 24 Vin models: 720 mA typ. |
|                   | 48 Vin models: 360 mA typ. |
| Surge Voltage     | 24 Vin models: 50 VDC max. (1 s max) |
|                   | 48 Vin models: 100 VDC max. (1 s max) |
| Input Inrush Current | 36.6 A typ. (24 Vin models) |
|                   | 34.2 A typ. (48 Vin models) |
| Under Voltage Lockout | 24 Vin models: 8 VDC typ. |
|                   | 48 Vin models: 16 VDC typ. |
| Recommended Input Fuse | 24 Vin models: 3’000 mA (slow blow) |
|                   | 48 Vin models: 1’500 mA (slow blow) |
| (The need of an external fuse has to be assessed in the final application.) |
| Input Filter      | Internal Pi-Type |
