Industrial Power Supplies
TSPC Series, 50–480 Watt

- Rugged metal case for harsh industrial environments
- Industrial operating temperature range: 
  –25°C to +70°C
- Overload and and overtemperature protection
- Power boost up to 120 %
- Power-Good signal
- Shock and vibration proof
- International safety approval package
- ATEX certification for hazardous locations
- Decoupling module for redundant operation (optional)
- Wall mounting (opt.)
- 3-year product warranty

The TSPC series are high performance DIN-rail mount power supplies for harsh industrial environments. The design is based on the popular TRACOPOWER TSP series but with reduced electrical features to make these power supplies an easy to install and cost efficient but reliable solution for basic applications.

Excellent electrical specifications and high immunity against electrical disturbances makes these compact modules the best choice for reliable industrial systems and machines.

For system applications all models provide a Power-Good signal. The TSPC series power supplies complies with the latest safety and EMC standards for industrial environments and include ATEX EN 60079 certification for applications in hazardous locations.
